Working together to help **improve seafarers' shore** **leave!**

The Seafarers Trust aims to better understand the welfare needs of seafarers when in port. Whilst we receive a lot of feedback from the welfare providers, we receive very little feedback from the seafarers themselves. We believe it is important to understand the seafarers' point of view as to why some seafarer centers are less frequented so that we can develop strategies that will improve the services offered.

As Seafarers unions, you have close contact with your membership. We hope that we can rely on your cooperation to help us move forward and to improve the Port-Based Welfare Services for Seafarers. We would be grateful if you could send the survey out to your members and encourage them to take part, it will eventually come back to benefit your members.
